

Interdisciplinary Programme on Palliative and End-of-life Care

has been developed in cooperation with 10 European Universities and a North-American University: University of Connecticut (UConn). In January 2021 the project will be organized in blended learning in three different formats:

Format 1: Blended learning and contact education in Ghent

We want to offer the IPPE programme in Ghent in an adapted version and in a strict safe way: working in very small teams, keynotes in safe rooms, debate worldwide online, hands-on workshop, study visits in very small groups etc.

Format 2: Students@home (individual-online)

Keynotes, debate worldwide, presentations will be life streamed. Workshops will be replaced by films and discussions on MS TEAMS. Assignments are online.

Format 3: Students@home but with small local groups on their own campus

Keynotes, debate worldwide will be life streamed. Workshops and assignments will be in small groups partly with online coaching, partly with local teachers.

Intensive Programme 24th-29th of January

Topics: introduction to palliative and end-of-life care, communication with clients, bereavement, family and environment; ethical issues related to end-of-life decisions and euthanasia, spiritual and existential pain; caregiver's perspective; intercultural issues; impact of COVID-19 on palliative care.

Workshops: intercultural exchange, complementary care and interdisciplinary cooperation (haptonomy, aromatherapy, art therapy).

Social programme: team building activities, yoga online, dance, cultural evening, picnic.

INFORMATION ON THE COHEHRE ACADEMY

The Coehre Academy is one of the activities within the Coehre consortium. The aim of the Academy is to enhance international, interdisciplinary, interprofessional cooperation and capacity building within health education among the members institutions.

The Academy acts as a platform that initiates, supports and coordinates different activities. It offers opportunities to create, stimulate, found and intensify networking of partner institutions and to develop joint initiatives.

For further information on this Seminar, please contact:

Filip Dejonckheere
