**Creating Community Based Solutions for Inclusive,
Sustainable and Responsible Europe (3 UP BIPs)**

are integrated Blended Intensive Courses organized by the three universities from UP University Consortium The course are based on human-centered design and testing business ideas with experiments.

Course 1 Community learning and exploration

Basics of Human-Centred Design

Learning the principles and methods for exploring community needs.

Course 2 Creative confidence and solutions

Developing Creative Confidence

Gain the skills to develop tangible concepts and test them within communities

Course 3 Entrepreneurship and catalyzing the change

Learn how to build businesses based on previously developed concepts.

Understand how to catalyze change and why creating a positive impact is our ultimate goal.

This program aims to empower participants to learn how to drive meaningful change in their personal and professional life and also in the lives of their communities.

If you are interested to join one or several courses of 3 UP BIPs be in contact of the contact person of your university.

University of Bacau Gabriel Mares mares.gabriel@ub.ro

IBM Krems UAS Manfred Pferzinger

manfred.pferzinger@imc.ac.at

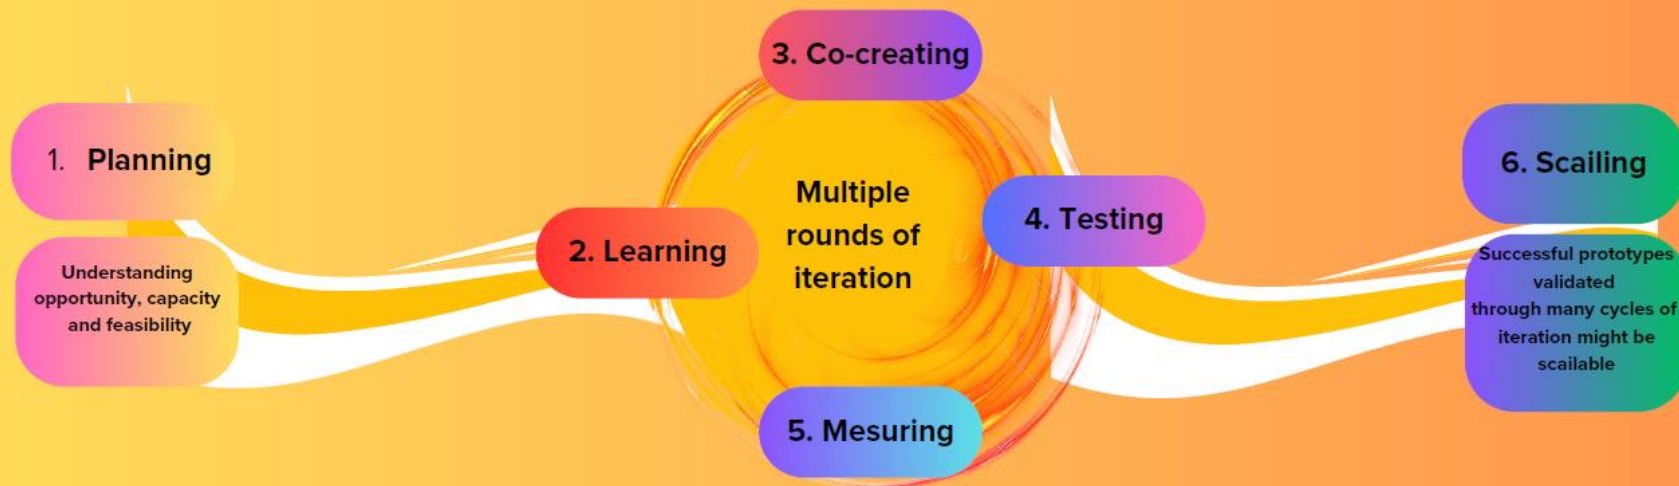

Oamk UAS Ulla-Maija Törmälä ulla-maija.tormala@oamk.fi

If you are a student or a staff member from an other university of the UP University, ask from your unis own international office for the opportunity to join one or several of the courses or send a message to Ulla-Maija.

These courses are co-funded by Erasmus+Programme of the European Union.

As a participating student / staff memeber you could get scholarship for the expences of the course from Eramsus+.

Meeting people where they are

Co-creating and iterating concepts

Understanding needs holistically

Assumptions and hypotheses	Findings and insights	Challenges and opportunities	Concepts and prototypes	Solutions and strategies	Future possibilities and businesses
